Note: pearl sugar is a coarse decorative sugar for topping, bought in small sacks from the general grocer -- it is a different product from the fine granulated sugar in the dough and filling, and is NOT part of the bulk sugar supply contracted from the mill.

Method

- 1. Warm the milk to blood-heat. Dissolve the yeast in the milk.*
- 2. Work in the softened butter, sugar, salt and cardamom, then the flour, until the dough is smooth and leaves the sides of the trough.*
- 3. Cover and prove for 30-40 minutes.*
- 4. Divide the dough and roll out into sheets. Spread with the filling.*
- 5. Roll up, cut into portions, and place in paper cases.*
- 6. Prove again for 30-40 minutes.*
- 7. Brush with beaten egg and sprinkle with pearl sugar.*
- 8. Bake in a hot oven, 225-250 C, for 8-10 minutes.*
